

MAD SCIENCE

Lydiard Class Homework Term 3

Self-Regulation- the ability to respond to the ongoing demands of experience with a range of emotions in a manner that is socially tolerable and sufficiently flexible to permit spontaneous reactions as well as the ability to delay spontaneous reactions when needed

Tomas Edison invented the light bulb, can you find out who invented the toilet?

Can you find a way to make ice melt quickly and share with the class?

Research rainbows with an adult at home, and ask them to write down how they are made so that you can share this with the class.

The children are learning about the importance of self-regulation . Can you create a poster together to label some emotions when things get tricky?
