

Science

The children will be learning about:

Living thing and their habitat:

- * explore and compare the differences between things that are living, dead, and things that have never been alive
- * identify that most living things live in habitats to which they are suited and describe how different habitats provide for the basic needs of different kinds of animals
- * identify and name a variety of plants and animals in their habitats, including micro-habitats
- * describe how animals obtain their food from plants and other animals, using the idea of a simple food chain

Emotional Quotient
